

## Rules for CYPHER 30 3.0

- The competition will start on **April 1** and end on **April 30**. Participants must submit their entries before the deadlines. **Registration closes on March 30th**.
- The competition is open only to **1st year, 2nd year, and 3rd year** students of OIST.
- **Consistency is the key**. Participants have to compulsorily submit the codes **regularly for 30 days** in order to be eligible for the final results.
- Participants must register for the competition and provide valid contact information. Only registered participants will be eligible to participate.
- Participants must have a **valid HackerRank ID** and use it to submit their solutions to the competition.
- Participants are free to use any programming language of their choice available on the platform.
- Submissions must be made in the form of source code directly on HackerRank.
- Submissions will be evaluated based on the **efficiency** and **readability** of the code.
- Results will be based on the leaderboard at the end of the 30th day of the coding challenge.
- Participation **e-certificates** will be provided to all eligible students.
- Participants must abide by the **code of conduct**, which includes rules against cheating, **plagiarism**, or any other form of unethical behavior.
- Plagiarism is not allowed at all and may lead to disqualification from the challenge.
- Participants retain the intellectual property rights to their submissions, but they grant the competition organizers the right to use their submissions for promotional purposes.
- Participants will be kept informed about updates, changes, and results through email.
